Prevent Snow Slide Risks on Standing Seam Roofs

THE CHALLENGE

Standing Seam roofs are built for long-term reliability—offering exceptional durability, extreme weather resistance, and sleek design. However, their smooth, slick surface create a critical liability: sudden, dangerous snow slides.

THE SOLUTION: ALPINE SNOWGUARDS PD82

Purpose-engineered for standing seam roofs, the PD82 adds essential surface friction to the roof surface, allowing snow and ice to melt off gradually in small, controlled amounts.

PD82 PAD-STYLE SNOW GUARD

Decorative Safety

Add character to your roof line. Blend high-performance safety and visual interest into to your roofline with our unique "saddle" design.

Warranty Protection

Protect your roof's warranty. Oval-point set screws securely attach to the seam without piercing the metal, ensuring your roof's warranty remains intact.

Installation Ready

Easily add protection to your roof. No on-site assembly required so you can quickly and easily protect your property from snow

Budget Friendly

Protection shouldn't cost a fortune. The PD82 safely manages snow and ice at a price that fits your budget.

PD82 | Aluminum

Roof Types	Materials	Finishes
Standing Seam	Aluminum (AL)	Mill Finish, Powder Coating (additional charge) using RAL TIGER Drylac® Exterior Colors
